ARCHITECTURE EXPERIENCE

Parkhill Architecture

Spring 2022

Architectural Intern · Frisco, TX

Developed an independent tiny home design project from concept through documentation while shadowing design architects and the firm's marker renderer — an experience that anchored marker rendering as a primary skill.

ACE Mentorship Program

2020–2022

Student Participant · Architecture, Construction & Engineering

Developed and presented an original design project each year at a formal end-of-year showcase, while receiving mentorship from practicing architects and engineers and participating in professional firm visits across three years.

SELECTED ACADEMIC PROJECTS

Louise Nevelson–Inspired Skyscraper & Ground Design

Rhino

Extracted a formal vocabulary from a focused area of Nevelson's sculpture and applied that language consistently across facade composition and ground plane design, maintaining programmatic function throughout.

Beaver Lake Artist Retreat · Fayetteville, AR

Rhino

Designed a retreat campus on an existing lakeside site integrating co-op studios, a communal dining facility, individual cabin accommodations, and recreational amenities into a cohesive architectural landscape.

Interior Architecture: Light in Space

Revit

Studied lighting systems within an existing building, deliberately choreographing brilliance, task illumination, and ambient light to shape distinct and intentional spatial experiences.

ADDITIONAL EXPERIENCE

Sky Ranch Christian Camps

Summers 2023–2025

Camp Counselor

Guided campers through spiritual programming and community activities while maintaining a safe, structured environment — demanding sustained patience, attentiveness, and leadership under pressure.
